Perfusion International and Houston Extracorporeal Therapies offer a full range of renal solutions, including:

- Intermittent Hemodialysis (IHD)
- CRRT
- TPE
- CHF Therapy

Perfusion International has Gambro [PrismaFlex](#) CRRT machines for lease. [Contact us](#) for leasing options.

Perfusion International can also provide disposables (Filter Sets), fluids and technical support and help

setting up your CRRT program.

Continuous Renal Replacement Therapy (CRRT) is an umbrella term used to describe several treatment modalities.

Common methods for delivering CRRT include the following.

- Continuous Venovenous Hemofiltration (CVVH)
- Continuous Venovenous Hemofiltration with Dialysis (CVVHD)
- Continuous Venovenous Hemodiafiltration (CVVHDF)

Perfusion International uses the [PrismaFlex](#) by Gambro Renal Systems. Perfusion International can supply:

Ø Comprehensive training for your nursing staff.

Ø Full time CRRT coverage.

Ø Initial set-up and on call technical consultation.

Ø PrismaFlex machines.

Ø Circuit disposables.

Please [contact us](#) for more information about CRRT and for a competitive quote.

Who can order and manage CRRT services?

§ Nephrologists
